BACKGROUND

Established in 2002, nestled in Argentina's San Juan region, Bodegas Callia embodies modernity and innovation. This well crafted range of wines exudes freshness and vibrancy, boasting an inviting fruit-forward profile that promises exceptional value for consumers. Sourced from vineyards employing sustainable practices, the winery is steadfast in its commitment to preserving local ecology and conserving resources for the region's future.

TERROIR & VINTAGE NOTES

Bodegas Callia is situated in the Tulum Valley in Argentina's province of San Juan. It is nestled between the Pie de Palo hills to the north and the Cerro Chico Del Zonsa to the south. Two finca estates encompass 700 acres of land: Finca Pie de Palo and Finca 9 De Julio. At 630 meters above sea level, the area is blessed with a temperate climate, low rainfall, and rich sandy alluvial and clay loam soil; the result is intense and fruity wines that reflect the rich terroir of this region.

WINEMAKING & AGING

Grapes were harvested at peak advanced maturity to attain greater natural sugar. Traditional fermentation in stainless steel tanks with maceration and temperatures controlled at 80° to 86°F. Afterward, the wine underwent malolactic fermentation, then filtered and bottled, followed by 4 months of contact with French oak.
